

ABI-300

Manual ABI Testing

CPT 93922

simpleABI Systems from Universal Medical Testing use the power of computers to produce the reimbursement reports you need quickly, easily, and accurately. The easy to use PC-based systems' minimal learning curve makes it easy to begin performing exams. Automatic index calculations make the simpleABI system make exams as easy as taking blood pressures. **Print to any standard office printer or save and load directly to EMR.** The diagnosis is made using the gold standard Doppler and simple pulse volume recording (PVR) waveforms. The ABI-300 system meets the new dual ankle requirements for CPT code 93922.

ABI-300 Features:

• PC-based ABI system

- Easy staff training - simple to learn and use
- Point & Click reporting right on the computer
- Uses "Gold Standard" 8MHz Doppler
