

Cuff-Link

simpleABI[™]
with CUFF-LINK[™]

Making ABI as simple as ABC

The simpleABI systems with Cuff-Link bring an unprecedented ease to vascular diagnostic testing. With automatic cuff selection and a simple handheld remote control, your **diagnostic testing is efficient and effective**. The systems have been designed to provide accurate diagnosis using the most efficient protocols recommended. **'Click and Capture' PVR waveforms in conjunction with Doppler pressure measurements make testing easy**. All simpleABI systems are PC based, so attaching diagnostic reports to patient records in your EMR is as easy as saving a file.

Cuff-Link – Automatic Cuff Selection

Cuff-Link Remote - 6 button simplicity!
